Introduction

Research has shown that creative activities help people unwind from the pressures of everyday life, and coloring is a perfect fit.

“Coloring elicits a relaxing mindset, similar to what you would achieve through meditation. Like meditation, coloring allows us to switch off our brains from other thoughts and focus on the moment. Tasks with predictable results, such as coloring or knitting, can often be calming.”

~ Dr. Stan Rodski, Neuropsychologist

The adult coloring market is wide open for a variety of coloring products (not just books) that you can tap into to earn BIG money.
